dhana.keerthu97@gmail.com
Chennai, TamilNadu

EDUCATION

B.Tech Chemical Engineering
2014 - 2018

SKILLS

json files, matplotlib, powershell scripting, SUMO simulation, python tools, VS code, Meld, Excel Spreadsheets, Data Reporting, csv files

TECHNOLOGIES USED

Languages: Python
ML Frameworks: Darknet
Tools: Github
Annotation tools: Tagger
Cloud Services: Local Drive

Dhanalakshmi.M

Support - AI ML Developers Team

Experienced professional with 3.6 years as a **Team Lead** for Indian **Annotation** team and **Support** for **AI/ML Developers** within **U.S.**-based teams. Expertise in model training, fine-tuning and aligning AI/ML solutions with business objectives. Strong skills in model evaluation, data collection, ensuring annotation accuracy, and providing actionable feedback to enhance performance.

EXPERIENCE

Support - AI ML Developers Team / Team Lead - Annotation

Ermofilex Rhythm Engineering, Chennai [**10/2021 - Present**]

- Collaborated closely with data scientists to train ML models focused on **object detection** and low-visibility scenarios, achieving a high accuracy rate of 98%.
- Supported development of ML models using frameworks like **Darknet**, **PyTorch**, wrote **powershell scripts** to retrieve data for model tuning and experimentation.
- Supported **A/B testing** and performance evaluation of deployed models using metrics such as **precision**, **F1-score**.
- Configured **MCDOT** locations for **traffic data analysis** and optimization, ensuring seamless integration into traffic systems to enhance **real-time data analysis**.
- Applied hands-on expertise with the **SUMO** traffic simulation tool to study vehicle behavior, analyze complex road networks, and develop traffic management strategies.
- Generated **data reports** from validated **CSV** files, **visualizing model performance** using graphs using **matplotlib** and tables with interactive filters for intuitive analysis.
- Collaborated with data scientists and product teams to define **annotation guidelines** and improve model performance through iterative feedback.
- Managed **annotation** and **data collection teams**, overseeing **task validation** and ensuring efficient integration into the AI/ML development workflow.

Project Trainee [AR&D]

Piramal Pharma Solutions, Chennai [**11/2019 - 04/2021**]
