Bachelor of Technology
Information Science & Engineering
Nitte Meenakshi Institute Of Technology (NMIT), Bangalore

Experience

•Gama Consulting Solutions Pvt. Ltd. *Dec 2023 – Present*

Associate Software Developer Remote

- Developed and maintained mobile applications using React Native for 1+ year, followed by 1+ year of continuous support, updates, and enhancements.
- Managed the full application lifecycle: Requirements gathering → Technical Specifications → Development → Testing → Go-Live → Client Training → Ongoing Maintenance.
- Maintained and managed large-scale Excel data sheets, performed data cleaning, and generated intelligent, customized reports tailored to client-specific KPIs.
- Developed automated Excel dashboards using pivot tables, charts, and formulas to visualize business trends and support data-driven decision-making.
- Translated complex business needs into technical documentation, ensuring alignment with stakeholder expectations.
- Built scalable front-end and back-end features using React.js and SQL, significantly improving performance and UI responsiveness.
- Integrated REST APIs, implemented secure authentication, and configured CI/CD pipelines to streamline builds and deployments.
- Worked within Agile/Scrum teams, consistently delivering sprint goals and conducting code reviews to maintain code quality.

Projects

•TIMBER SUPPLY CHAIN SYSTEM *May 2023– Present*

Built a role-based web app to manage and visualize timber supply data with user permissions and interactive dashboards.

- Primary technologies used are **React.js and SQL**.
- Built dynamic user interfaces using React.js and implemented structured data handling and visualization through SQL-based backend logic.
- Improved operational efficiency and data accuracy by streamlining input workflows and incorporating robust debugging and validation processes.

•ASSIGNMENT MANAGEMENT APP *Feb 2024*

Built a cross-platform app for real-time assignment tracking with admin dashboards for streamlined academic task management.

- Primary technologies used are **React.js and React Native**.
- Improved task tracking and communication efficiency by implementing real-time assignment status updates and dynamic admin control panels.

•TAILOR'S APP *Jan 2024*

Custom clothing order management system with real-time delivery tracking and client engagement features.

- Primary technologies used are **React.js and React Native**.
- Improved order tracking efficiency by **35%** and enhanced customer satisfaction by **25%** through real-time updates and intuitive UI.
- **COMPANY WEBSITE DEVELOPMENT** *Jan 2025 – Present*

  Designing and maintaining a responsive company website with modern UI/UX features and mobile optimization.

  * Primary technologies used are **HTML, CSS, and JavaScript**.
  * Developed a clean, responsive front-end layout ensuring cross-device compatibility and fast load times.
  * Continuously updating website content and structure based on client feedback to improve user engagement and brand presence.

Technical Skills

- **Technical :**React.js, JavaScript, HTML, CSS, Python, SQL
- **Software Packages :** Git, Visual Studio Code (VS Code), MySQL Workbench
- **Soft Skills :**Communication, Teamwork, Problem Solving, Adaptability, Collaboration

Education

–Nitte Meenakshi Institute Of Technology (NMIT), Bangalore *2019-2023*

B.Tech in Information Science & Engineering **CGPA: 6.8**

–Sri Chaitanya Junior College, Telangana *2019*

Senior Secondary Examination - Class XII **Percentage: 84%**

–Guru Nanak Public School, Bidar *2017*

Higher Secondary Examination - Class X **CGPA: 9.4**
