PROFESSIONAL SUMMARY

3.5 years of experience in Data Engineering, Data Analytics, Data Mapping, Data Modelling, ETL, SQL, and Business Requirement Gathering. Skilled in delivering data-driven solutions and actionable insights for large enterprises. Experienced in executing end-to-end projects, from requirement analysis to deployment, with strong expertise in healthcare, consumer goods, and mining industries. Proven ability to design and implement POCs for national and international clients, ensuring business value through innovative data solutions.

SKILLS

Databases: MS SQL Server, Vertica, PostgreSQL, MySQL
Analytics & BI Tools: Power BI, Excel, Intellicus BI, Lumenore BI
Languages: SQL (Advanced), Python (Pandas), Restful API (O data service)
Cloud: Azure Databricks
Concepts: ETL Development, SCD, Data Warehousing, OLAP, Data Mapping, Data Modelling
Other Skills: Agile, Stakeholder Communication, Documentation (BRD), Tailwind CSS

WORK EXPERIENCE

Netlink Software Group America Inc – Bhopal, India **Software Engineer** | *Feb 2025 – Present*

- Led POC development for national and international clients (**JLL, NTPC-Green, Tata Motors**), using synthetic data to simulate real-world business scenarios.
- Built dynamic dashboards for logistics, finance, and customer engagement, improving decision-making.
- Developed IT infrastructure analytics dashboards, identifying key metrics (CPU, memory, storage, uptime) and enabling proactive monitoring.
- Optimized ETL pipeline for user onboarding analytics, reducing execution time from **1 hours** to under **15 minutes**.

Impetus Technologies Pvt Ltd – Indore, India **Associate Software Engineer** | *Oct 2022 – July 2024*

- Designed and implemented an end-to-end ETL pipeline to extract data from sources such as **SAP HANA**, Greenplum, **Restful API (O-Data Service)**, Excel, and CSV files, transforming it before loading into a centralized data warehouse.
- Managed end-to-end ETL pipelines (data ingestion, cleaning, staging, transformations, and fact/error tables), reducing pipeline execution time by **30%** and improving reliability.
- Built star-schema data models in Intellicus BI using MDX Query, improving data accuracy by **25%.**
- Automated data refresh schedules via scheduler, reducing manual reporting efforts by **80%.**
- Implemented Slowly Changing Dimensions (SCD), Handling updates seamlessly and enhancing data accuracy by **25%.**
- Improved data accuracy by **20%** by implementing data quality checks.
- Authored Business Requirement Documents (BRDs) and collaborated with clients onsite.
- Implemented ETL monitoring, debugging, and workflow optimization to minimize failures and downtime.
- Automated web scraping with Python (Selenium, Beautiful Soup) to enrich datasets.

Tathastu Dental Hospital – Bhopal, India **Professional Data Analyst** | *May 2021 – Sept 2022*

- Designed and deployed interactive Power BI dashboards integrating data from patient management systems, billing, and Excel records, enabling executives to monitor hospital KPIs in real time.
- Integrating Power BI Dashboard with SQL Server and Excel data sources, empowering executives with real-time insights into operational and financial KPIs.
- Leveraged **Power Query, Power Pivot, and DAX** to build optimized Power BI data models, improving calculation efficiency and increasing data accuracy by **20%.**

EDUCATION

Bachelor of Engineering – Electrical & Electronics Engineering April 2016- June 2020
Rajiv Gandhi Proudyogiki Vishwavidyalaya (RGPV), Bhopal, India

- CGPA: **8.44 / 10.0**
