Shirin S

AI Developer|Data Scientist

Dynamic Data Scientist and AI Developer with experience of crafting data- driven solutions. Skilled in Python, R, SQL, and proficient in end-to-end ML development. Proven track record of collaborating across teams to tackle complex challenges. Passionate about innovation and staying current in the field.

Education

2021
Master of Computer Application
Calicut University
University 3rd Rank

2019
Bachelor of Computer Application
Calicut University
University 7th Rank

Expertise

- Python Python Libraries -
- scikit-Learn,
  Tensorflow, Pytorch
- Artificial Intelligence
- Machine Learning
- Data Visualization - Power BI
- MySQL
- MS Excel
- Statistics

Language

English

Experience

Jun 2024 - March 2025
Finsoft Mangement - Teqfire | Dubai ,UAE
Python Developer

- Developed a comprehensive software solution using Python to automate daily revenue, CTC (Cost to Company), RPM (Revenue per Mille), and RPC (Revenue per Click) calculations.
- Designed and implemented robust SQL queries for efficient data storage, retrieval, and manipulation.
- Built predictive models to forecast future revenue using machine learning algorithms .
- Integrated data visualization tools (e.g., Matplotlib, Seaborn) for insightful reporting and trend analysis.
- Optimized backend performance and automated daily data processing tasks to reduce manual workload.

Oct 2023- Jun 2024
Prepared Academy-PACE Group I Sharjah-UAE
Data Scientist/AI Developer

Developed and implemented the "Lesson Plan" module utilizing ChatGPT technology to automate lesson plan creation for teachers. Enhanced user experience by incorporating various elements into generated lesson plans including visual contents, audio contents, reading/writing material, and worksheets. Developed an analytics module integrating SQL and Python to visualize and analyze educational data, providing valuable insights to stakeholders for informed decision-making and performance enhancement. Developed an ML-based program to automatically generate and evaluate subjective and objective question answers by analyzing student activities.

Jan 2023- July 2023
Intellipaat Software Solutions Pvt. Ltd. I Bangalore
Machine Learning Engineer Intern

- Assisted in the development and implementation of machine learning models for diverse projects.
- Participated in data exploration and analysis to extract meaningful insights from structured and unstructured data.
- Contributed to model evaluation by applying performance metrics such as accuracy, precision, recall, and F1-score.
- Documented methodologies, findings, and results in a clear and organized manner.

Personal Details

- Gender : Female
- Passport Validity : 12-02-2033
- Date Of Birth : 02-05-1998
- Nationality : INDIAN
- Marital Status : Married
- Location : India

Projects

1. E - Learning Platform

Project: Generation of lesson plans using AI, an Education Data Analytics Module, and ML-based Subjective and Objective Question Generation, with automated evaluation of answers
Methodology: Leverage advanced analytics, machine learning algorithms and Artificial Intelligence

2. Intelligent credit card fraud detection

Methodology: Leverages advanced analytics and machine learning techniques.
Purpose: Provides a robust solution for financial institutions to combat credit card fraud and protect customers' assets.

3. Predicting Customer Churn

Project: Predict customer churn using advanced analytics and machine learning.
Methodology: Leverage advanced analytics and machine learning algorithms.
Outcome: Facilitate improved customer retention strategies.

Academic Project

Development and Assessment of a system for early detection of Covid 19 & Pneumonia using X-Rays

Developed a system for early detection of COVID-19 and pneumonia using X-rays.
Utilized Python programming language for the development process.
Employed convolutional neural networks (CNN) in deep learning to build the detection algorithm.
Utilized Kaggle as a framework for data management and analysis during the project.

Course Certification

PG Diploma in Data Scientist | August 2022 - July 2023

Authorised by Intellipaat, Bangalore

Diploma in Data Scientist | Dec 2022 - July 2023

Authorised by IBM Developer Skills network

Cloud Computing | March 2022 - April 2022

Authorised by Learn Quest and Offered through Coursera

Data Visualization with Power BI | May 2022 - June 2022

Authorised by Great Learing

MS SQL| April 2022 - May 2022

Authorised by Microsoft and Intellipaat

Machine Learning | April 2024

Authorised by Great Learing

Value Education | Jan 2019

Authorised by Calicut University
