Professional Summary

Data Analyst with experience in data extraction, KPI reporting, dashboard automation, and business performance analysis using SQL, Power BI, Python, and Excel. Skilled in transforming raw data into actionable insights to support strategic business decisions. Seeking roles in Business Analytics, BI Analytics, and Data Science.

Experience

Business cum Data Analyst | Koushika Enterprise Private Limited | Chennai | Jan 2025 – Present

Enhanced Sales and Product Data Analysis: Leveraged tools such as Waizen, QuickBooks and Circana's – Unify+ for data extraction and used Power BI, Excel, and Python to conduct in-depth analysis of food product sales data. Identified key sales trends and customer behavior patterns to support data-driven business decisions. Designed and presented interactive dashboards and reports, contributing to the development of optimized sales strategies and improved outcomes.

- **Designed and Deployed Company Websites for Global and E-Commerce Markets:** Developed two fully functional, user-centric websites using low-code platforms (WIX) — one for international brand visibility and another tailored for the Indian e-commerce sector. Aligned website architecture with business goals, enhancing digital presence, user engagement, and product accessibility.

Generative AI Intern | Edufic Digital | Chennai | Aug 2024 – Oct 2024

- **Optimized data processing and extraction:** Leveraged AI tools, API keys, OAuth keys, and advanced web scraping techniques (**Python, Beautiful Soup**) to streamline YouTube data collection and analysis, reducing data processing time by 15%, improving data accuracy by 20%, and increasing operational efficiency by 10%.
- **Enhanced content strategy through data analysis:** Conducted in-depth statistical analysis of YouTube metrics using **Python** (**Pandas, NumPy, Matplotlib**) and data visualization techniques, leading to a 25% improvement in user engagement and contributing to more data-driven content strategies for the e-learning platform, resulting in a 10% growth in user retention.

Software Developer Intern | E-One Technologies | Chennai | Jun 2022 – Jul 2022

- Built a functional movie booking application using OutSystems, improving feature deployment time through low-code automation.
- Gained proficiency in OutSystems workflows and component development.

Technical Skills

Programming & Databases: Python, MySQL
Analytics & Visualization: Power BI, Tableau, Excel, Pandas, NumPy, Matplotlib, Seaborn
Machine Learning: Regression, Classification, Clustering, Scikit-Learn (Beginner)
Concepts: ETL, EDA, KPI Reporting, Forecasting, Predictive Modeling
Tools: WIX, QuickBooks, GitHub, Jupyter Notebook,

Projects

Deepfake Forgery Detection | *Python, Pandas, NumPy, Matplotlib or Seaborn, TensorFlow, Keras, Google colab* *Git* **Jan 2024**

- Deepfake forgery detection using deep learning algorithm achieving 98% accuracy on a dataset of 60,000 images as final year project at college.
- Learnt about how the neural networks concept used to detect the deepfake.

Airline customer satisfaction | *NumPy, Matplotlib or Seaborn, Pandas, Jupyter Notebook* *Git* **Mar 2024**

- Collected the dataset from uci repository and worked with the classification algorithms and got an 95% accuracy.
- Worked with algorithms like Decision tree classifier, Random Forest Classifier, Support vector machine and finds the best suitable algorithm.

Education

B.E Computer Science and Engineering **2020 – 2024**
Vels Institute of Science, Technologies and Advance Studies (VISTAS), Chennai. *CGPA- 8.4*

HSC - 12th **2019 – 2020**
Dhivya Matriculation Higher Secondary School, Chetpet, Tiruvannamalai. *Percentage- 64%*

SSLC - 10th **2017 – 2018**
Dhivya Matriculation Higher Secondary School, Chetpet, Tiruvannamalai. *Percentage- 80%*

Certifications

- Introduction to Data science online course completion - Infosys.
- Data analyst and Data scientist online course completion - Infosys.
- Acquiring data online course completion - Accenture.
- Certified 6 months course of Python, SQL, Power BI, Tableau, Artificial Intelligence, Machine learning, Deep Learning, and Neural networks – Besant Technologies.
