EDUCATION

BTech (CSE)	2021-25	KL University, Vijayawada	*9.55/10*
Class XII	2021	Sri Srinivasa Gravity Junior College	*97.1%*
Class X	2019	The Don Bosco Public School	*9.8/10*

Skills

Java | Python | JavaScript | Django | Flask | MySQL | MongoDB | Git | AWS | GCP| Pandas | Selenium | Scrapy | LLMs | LangChain | LangGraph |Crew AI | Machine Learning | ETL | Apache Airflow | Data Engineering | JIRA |

WORK EXPERIENCE

Associate Software Engineer (DE), Innoplexus Consulting Services Pvt Ltd **May 2025 – Present**

Tech Stack: Python, Gen AI, RAG, Crew AI LangChain, LangGraph, Scrapy, Selenium, Airflow, MongoDB, Git

- **Automated the JIRA logging process across the organization** by developing an agentic AI-based tool that autonomously maps work to JIRA issues by extracting context from calendar meetings, Git commits, sent emails, custom messages, and JIRA comments. Leveraged LangGraph and LLMs for automated comment generation, JIRA logging, and detailed worklog email reports, saving hours of time and reducing manual effort.
- **Designed and implemented a core product data pipeline** for protein prediction from scratch, integrating ML models and external/internal APIs, and reducing execution time by 77% through profiling, query optimization, batch processing, and parallelization, significantly improving data throughput and efficiency.
- **Developed a Crew AI-based workflow** that extracts incidence and prevalence data for a given disease from the web, automating biomedical data collection and research.

Data Engineer Intern, Innoplexus Consulting Services Pvt Ltd **May 2024 – May 2025**

- **Implemented a RAG pipeline using LangChain and LLaMA 4 model** to extract critical insights from Google Patents, achieving 80% accuracy in the first iteration. Utilized FAISS as the vector database with HNSW indexing, and optimized embeddings for high-precision information retrieval through fine-tuned chunking, context filtering, and iterative refinement.
- **Scraped 15+ websites using Scrapy, Selenium, and Beautiful Soup**, optimizing data extraction processes.
- **Developed a data pipeline from scratch with Apache Airflow for orchestration.** Optimized using batch requests and multiprocessing, reducing processing time and enabling efficient prediction of adverse events.
- Implemented LLM-based protein-disease tagging ability in the pipeline by analyzing literature abstracts.

Projects

Facial Emotion-Driven Music Recommendation App [GITHUB] [LIVE]

Built an image processing app that analyzes facial emotions and recommends mood-matching Spotify tracks, achieving 98% emotion detection accuracy. Key features include image capture, facial emotion recognition using AWS, and seamless song suggestions based on detected moods

Tech Stack: React.js, Cloudinary API, AWS SDK, AWS Rekognition, Axios, react-dropzone, Spotify API

AI-Powered Job Search & Ranking Engine [GITHUB] [LIVE]

Developed an AI-driven job-matching platform that analyzes resumes and job roles to deliver highly relevant job listings using RAG and LLM scoring. The platform fetches job data via the Google Jobs API, provides personalized insights (strengths, weaknesses, and suggestions), and stores ranked results in AWS S3. Deployed on Render for seamless and scalable access.

Tech Stack: React.js (Frontend), Flask (Backend), Python, LangChain, Hugging Face Transformers, Google Jobs API, LLaMA, RAG, Pandas, AWS S3.

Certifications

AWS Certified Cloud Practitioner
AWS Certified Developer Associate
Google Cloud Certified: Associate Cloud Engineer
Microsoft Certified: Azure Data Fundamentals
Microsoft Certified: Azure AI Fundamentals

Academic and Extracurricular Achievements

- Published a research paper titled "**Cloud-Enabled Facial Emotion Recognition**: A Comprehensive AWS Rekognition Analysis" in **IEEE** proceedings, presented at ICICV 2024.
- Solved over 400+ problems on LeetCode & participated in weekly contests.
- Ranked top 7 among 150+ teams at the **Smart India Hackathon 2023** internal event held at KL University
- Ranked 189th in college with over 300+ problem solutions on GeeksforGeeks.
- Achieved **NCC C Certificate** while effectively managing academics.
