## Objective

To obtain a challenging position as a Data Analyst where I can apply my skills in data collection, analysis, and visualization using tools like Python, SQL, and Power BI to provide actionable insights and support data-driven decision-making.

## Education

*2016*
**Lakshmi chordia memorial matric hr school**
10th standard
70%

*2019-2022*
**Krishnasamy memorial polytechnic College**
Diploma in Computer Engineering
89%

*2022-2025*
**Krishnasamy College of engineering and technology**
Bachelor of Engineering inComputer science engineering
7.6 ccpa

## Skills

Python

SQL

PowerBi

Ms Excel

## Projects

**Analysis and prediction employee attrition using machine learning**

Conducted an end-to-end data analysis and predictive modeling project to understand key factors influencing employee attrition and build a model to predict potential resignations. Performed data cleaning, EDA (exploratory data analysis), feature engineering, and applied machine learning algorithms such as Logistic Regression, Decision Tree, and Random Forest to classify employees at risk of leaving. Achieved an accuracy of XX% (insert your result) and identified top factors contributing to attrition, such as job satisfaction, salary level, and overtime. Visualized insights through charts and dashboards to support HR decision-making.

## Internship

Data analyst internship from July2024- June 2025

Assisted in collecting, cleaning, and analyzing large datasets to uncover insights and support business decisions.

Used tools such as Excel, SQL, and Python to perform data wrangling, statistical analysis, and reporting.

Created visualizations and dashboards using Power BI/Tableau to communicate key metrics and trends to stakeholders.

Collaborated with cross-functional teams to understand business requirements and translate them into data-driven solutions.

Supported ongoing data quality and integrity initiatives by identifying inconsistencies and proposing corrective actions.

Gained hands-on experience with real-world business problems, enhancing analytical thinking and problem-solving skills.
