CAREER OBJECTIVE

Aspiring Data Scientist seeking a challenging internship opportunity to grow practical skills in data manipulation, predictive modeling, and visualization. Committed to learning from experienced professionals and applying innovative approaches to derive actionable insights from data for impactful real-world application.

PROFESSIONAL SUMMARY

- ✓ Currently pursuing Data Science Specialization using Python from AnalytiX Labs, Bangalore.
- ✓ Hands on experience on Analytical tools like Python, SQL, Power-BI and EXCEL.
- ✓ Familiarity with Machine Learning Algorithms in both Supervised Learning and Unsupervised Learning.
- ✓ Effectively perform Data Cleaning, Data Manipulation, Model Implementation, Hypothesis Testing.
- ✓ Build different projects in learning period related to retail, banking datasets using various analytical tools.
- ✓ Good conceptual understanding about Statistics, Predictive Models, Linear Algebra, Calculus.

EXPERIENCE

Data Analyst Internship [ELEVATE LABS] **[Apr 2025 – May 2025]**

- ✓ Gain hands on experience in predictive modelling, build one Machine Learning project using Linear Regression model to predict student performance.
- ✓ Analyzed different datasets to extract meaningful insights under guidance of Domain Professionals.
- ✓ Writing clean, maintainable code using Python and relevant libraries
- ✓ Learned and implemented different data science tools and techniques.

PROJECTS

Student Performance Prediction | GitHub Link: Project Link

- ✓ Achieved 90% accuracy in forecasting student academic performance by developing machine learning model.
- ✓ Managed data integrity by handling missing values, enhancing quality.
- ✓ Performed Outlier treatment, Feature Selection, checking multicollinearity methods to prevent model from overfitting.
- ✓ Identified and comprehended key factors influencing academic performance through analysis.

Model: Linear Regression **Libraries:** NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn **Jupyter Notebook**

E-Mail Spam Detection | GitHub Link: Project Link

- ✓ Build a model to detect whether particular mail was spam or ham
- ✓ Initialized model using classification technique
- ✓ Transformed text(E-mail) into numerical vectors based on important words (TfidVectorizer)
- ✓ Performed text preprocessing including lower casing, punctuation and digit removal, and stop work elimination.
- ✓ Evaluated model performance using different Evaluation metrics.

Model: Logistic Regression **Libraries:** NumPy, Pandas, Matplotlib, Seaborn, Scikit-Learn **Jupyter Notebook**

Customer Segmentation Based on Spending Behavior | GitHub Link : Project Link

- ✓ Segmented customers based on their purchase behavior.
- ✓ Identify key customer segments with similar behavior.
- ✓ Performed EDA to extract key factors.
- ✓ Analyzed the characteristics of each cluster.
- ✓ Profile the clusters by summarizing the mean values for each point in each cluster.
- ✓ Analyzed the cluster formation using WSS, SSB

Model: KMeans clustering **Libraries:** Numpy, Pandas, Matplotlib, Searbon, Scikit-Learn **JupyterNotebook.**

EDUCATION

- **Master of Business Administration** — **Nov 2022 – Sep 2024**
  Sri Krishandevaraya University — CGPA – 7.0
- **Bachelor of Science [MPCs]** — **Jul 2018 – Oct – 2021**
  Sri Shankarananda Giri Swamy Aided Degree College — CGPA – 8.1
- **Intermediate Education [XII]** — **Jun 2016 - Apr – 2018**
  Sri Shankarananda Giri Swamy Aided Junior College — CGPA - 8.8
- **SSC [X]** — **Apr – 2016**
  Sri Saraswathi vidya mandir high School — CGPA – 8.2

COURSES AND CERTIFICATIONS

- **Adv. Cert. In Data Science & A.I BTCMP (Nasscom) [** In Progress **]** — **Jun 2025 – Aug 2025**
  From AnalytiX Labs, Bangalore- 8 months Bootcamp course
- **Data Science with Python – AnalytiX Labs, Bangalore**
- **Data Analytics Essentials – Cisco Networking Academy**
- **Programming in Python – Besant Technology**
- **C – Programming language – Sushma Computers**

DECLARATION

“ I declare that the details in this resume are accurate. I am a fresher and I am looking forward to enhance to learn and grow with in your organization.”

- **SANDE BHUVANACHANDRA YADAV**
