- **Database** - MYSQL
- **Programming Language** – Python
- **Statistical Analysis**
- **Machine Learning** -Scikit-learn
- **Data Visualization Tools** – Tableau

PROJECTS :

Chennai House Price Analysis | Python | Machine Learning | 2024

Description: Conducted an in-depth analysis to predict house prices in Chennai using machine learning algorithms. Utilized data collection and preprocessing, applied regression models, and evaluated model performance to provide actionable insights.

Diabetes Prediction Model | Python | Machine Learning | 2024

Description: Built a predictive model for early diabetes detection through data preprocessing, feature engineering, and machine learning classification algorithms, enhancing diagnostic capabilities.

TCS Stock Price Analysis | Python | Machine Learning | 2024

Description: Performed analysis and forecasting of TCS stock price trends using historical data.
Implemented time-series models and visualized trends to generate insights for market predictions
